

GENEALOGICAL TABLES

Chiefs of Pagan.

DATED lists of their progenitors at Tagaung and Prome from the ninth century B.C. are given in the chronicles but are here omitted as being nugatory. Conceivably the three states were contemporary, and the chroniclers arranged the lists consecutively, wishing to portray a continuous lineage stretching back to divine antiquity. Of the data below before 1044, none are attested and many are improbable, see pp. 307-9:
